## Information Technologists

ministering to churches and missionaries with their computer needs

Brothers and Sisters in Christ,

We are working on several projects in different stages. I have found some good resources for Bible courses and tools for using technology to meet many different requirements. AI can translate text, pdf documents, websites, and livestreams.

**Current/Future projects:**

Working with missionary to Nepal on video translation project

Assisted two missionaries with website updates

Assisted missionary to Estonia with Estonian to English translation.

Assisted missionary to Mexico with English – Spanish Video Translation

Assisted missionary to Argentina with English – Spanish, Hebrew, Chinese, German, and French Video Translation and working on Vacation Bible School animation project

Hawaii Baptist College (https://hbc.koolaubc.org):
Obtained Google Classroom and 100TB of cloud storage to train students for ministry
Setting up (HBC) classroom for recording and livestreaming classes

I am looking for videos (Bible lessons 30min or less) to translate for use in other countries

I am looking for some audio/video translation projects to work on at no cost to missionaries and churches. Please contact me if interested!!

Thanks for your prayers and support!
