Information Technologists

ministering to churches and missionaries with their computer needs

Brothers and Sisters in Christ,

I was blessed to share my salvation testimony and present our ministry at Anchor of Hope Baptist Church in Rossville, Georgia in June. Armi and I also went back to Harrison, Tennessee to attend a week of Candidate School at Baptist International Missions, Inc.

We have also been speaking with many missionaries about Bible Colleges/Institutes/Seminaries and using technology to store video, translate video/syllabi. This has potential to help many Christians and ministries.

Current/Future projects:

Assisted BWMOM mission board with a server upgrade and database migration.

Working with missionary to Nepal on video translation project. Provided video translation and transcription of scripts for review by nationals in Nepal. Videos modified for translation accuracy.

Assisted two missionaries with website updates including video updates.

Home Church at Koolau Baptist Academy in Hawaii: Obtained several thousand dollars worth of free surplus computers from US Military for classroom use (server and tablets).

Started a network upgrade project for Windward Baptist Church in Hawaii at no cost to the church. New firewall/router/switch, WiFi access points, and network file storage to install and configure.

Assist River of Life homeless ministry in Hawaii with security and computer install/configure.

We will be travelling to the Philippines in December this year to assist missionaries and ministries where there is a need for IT. Please share. We are in the initial planning stages. No cost to ministries.

Thanks for your prayers and support! May the Lord bless you in your specific endeavors to spread the Gospel to the world!
