Information Technologists

ministering to churches and missionaries with their computer needs

Brothers and Sisters in Christ,

This update has a bunch of technical details about projects. Hopefully you can see a way that my wife and I can provide assistance to your ministry in terms of IT support.

Current assistance:

Website and graphics design work for BIMl International Representative Dan and Sandy DeLong:
<https://delongministries.org>

Set up multicasting (through Sermonaudio.com) for Koolau Baptist Church. Multicast on SermonAudio, Facebook and Youtube simultaneously.

Assist ministry that feeds homeless and shares Gospel message to replace network and phone system. Current costs over \$1300 a month with antiquated equipment to estimated \$150 month with better technology and 20 times bandwidth.

Future plans:

Travel to sensitive country in December to set up computer network for Independent Baptist Seminary and assist BIMl missionary. Servers, computer lab, security cameras, firewall, switches, etc. Also to provide videography work with my daughter's assistance.

Recent Past work:

Provided archived messages from 2008 – 2017 online for 4 different churches and ministries.

Assist Maranatha Baptist Church in Okinawa with websites and hosting.

Assist Windward Baptist Church with free Microsoft 365 software and PC maintenance.

Assist home church (Koolau Baptist Church) with VOIP (replacement for POTS phone system). From \$600 a month for 7 phones to \$70 a month for 26 phones. Also set up multiple virtual Windows 11 systems with free hardware for Koolau Baptist Academy.

Thanks for your prayers and support!

Ed Habal
